On behalf of CEMPROC and the students who will benefit from this intensive training, thank you for your generous support! This program, which brings this innovative course out from Quito into more rural areas, will serve as a model which can be repeated for future programs in other rural areas.

Once the fundraising and recruitment stage is complete, you will be contacted with the identity of the sponsored student you have been assigned. After the course takes place, we will send you additional feedback, including photos from the course, a short report, and a thank-you letter from your sponsored student(s). Updates may be posted on the Pastors for Peace section of the CEMPROC web site, found at <http://www.cemproc.org/pforp.html>
